ANXIOUS TO CUT PRICES.

The Big Trusts Show Great Willingness to Sell Panama Supplies at Cut Rates.

Washington, May 23.—Representatives of the big trusts which will be bidders for furnishing supplies to construct the Panama canal are falling over each other in their anxiety to get the ear of Secretary Taft and Chairman Shonts, of the canal commisison, to tell them that they will furnish supplies to the government as cheap as any foreign manufacturer. The pronunciamento of the administration has brought results and the protected industries are hastening to make peace before a tariff revision crusade gets a foothold.

Among other concerns which have offered terms is the steel trust. A representative of that company has already informed Secretary Taft that the government can have anything it wants at the trust's foreign prices, provided it will transport the supplies to the isthmus. No answer has been made, but it is probable the trust may be called upon to deliver the goods on the isthmus at the same price it sells them in England if the shipping facilities to the isthmus can be arranged.

Winona Lake, Ind., May 23.—The general assembly of the Presbyterian church Monday voted to select a special committee to arrange for a celebration during May of next year of the 200th anniversary of the formation of the first Presbytery in Philadelphia. The proposition to allow Presbyteries in the boundaries of other presbyteries was adopted without one dissenting voice. This is to allow separate presbyteries for negroes and foreigners. The board of missions for freedom submitted its report through Dr. E. J. Inglis of Newark, N. J.

The general assembly of the Presbyterian church has voted to unite with the Cumberland Presbyterians.

Machen Trial Postponed.

Washington, May 23.—The Machen-Lorenz-Crawford postoffice conspiracy case, involving purchases of letter carriers' satchels, which was set for trial Monday, went over until Tuesday by agreement of counsel. Counsel for Machen announced that he was not in a position to plead to the indictment and intimated that it might be necessary for him to raise the question of the right to try Machen at this time.

Dr. Zeigler's Claim Disallowed.

Chicago, May 23.—A claim for $100,000 for medical service by Dr. L. C. H. E. Zeigler of Chicago against the estate of Harriet McVicker, widow of the well-known theatrical manager, was disallowed Monday by Judge C. S. Cutting of the probate court. Judge Cutting held that the claim was excessive. He instructed Dr. Zeigler to present another one of more moderate proportions. A claim of $10,000 under a contract exhibited in court was allowed.

Grand Duke Nicholas Nicholaevitch Named as Head of New Commission.

IS TO HARMONIZE THE TWO BRANCHES

Land and Sea Forces Have Not Been Working Well Together Heretofore—Body Will be Styled the Permanent Defense Council—Emperor's Manifesto Preceded by Rescript.

St. Petersburg, May 23.—The first step towards the institution of the long contemplated council of national defense, to co-ordinate the activities of the military and naval administrations, has been taken in an imperial manifesto creating a special preliminary commission under the presidency of Grand Duke Nicholas Nicholaievitch.

The manifesto is preceded by a rescript which Emperor Nicholas has addressed to the grand duke in which His Majesty says: "In order to insure the development of the empire's fighting force in a manner corresponding to the needs and resources of the state and uniformity in the duties of the supreme naval and military administration, and also to harmonize them with those of other government institutions in questions affecting the safety of the state, I have deemed it necessary to establish a permanent defense council. I charge the special commission, consisting of members appointed by me under the presidency of Your Imperial Highness, to draw up according to my direct suggestion a law relating to this institution."

The rescript concludes with the expression of the conviction that the commission will carry out the task confided to it without delay and with the care and undivided attention which the high importance of the new institution demands.

The formation of the council and the assumption by it of control of the war is expected to ensue shortly, as the main details have already been worked out. The dispatch of Grand Duke Nicholas Nicholaevitch, who is designated as the president of the government state defense council to Manchuria, to assume direct command of the imperial forces there, has been several times seriously considered, and he has served repeatedly of late as representative of the emperor on commissions dealing with vital questions of the war.

LINEVITCH REPORTS SOME FIGHTING

Russian Troops Dislodge Forces of Japanese Cavalry and Infantry—Mikado's Soldiers Seize Steamer at Port Arthur Formerly Used as Hospital Ship by the Russians.

Paris, May 23.—The reports in circulation here to the affect that colliers belonging to the Russian fleet intend to rendezvous at the Babuyan islands, north of the island of Luzon, Philippine Islands, are not based on precise information but are the results of figuring on the latitude and longitude where a portion of the fleet was last obsevred. This course if continued, it is pointed out, would take the ships into the Balintang channel near which the Babuyan islands are situated. It is therefore inferred that the Russians will rendezvous in that locality for the purpose of coaling.

St. Petersburg, May 23.—Gen. Linevitch in a dispatch from the front dated May 21, announces that two Russian detachments occupied the valleys of the Khanda rivers westward of Nanshentsi on the Mandarin road after dislodging forces of Japanese cavalry and infantry. The dispatch adds that Gen. Martynoff's detachment from Tadlu also drove back the Japanese advanced cavalry out posts. Gen. Linevitch also reported fighting near Shahotz May 18, but did not give the result. He said a Russian detachment east of the railroad which approached the village of Shahotz was attacked by a considerable force of Japanese from the coal mines.

Chefoo, May 23.—Travelers who arrived here Monday from Port Arthur say that the Japanese armed force of 100 men boarded the Russian steamer Kazan on Saturday in Port Arthur harbor on receipt of a dispatch from Tokio announcing that the Japanese government had decided to retain her as a prize on the ground that she is a war vessel. The Russians used the Kazan a a hospital ship during the siege.

The last of the Russians wounded at Port Arthur will leave there Tuesday. Barashoff Langa, the superintendent of the Russian Red Cross at Port Arthur, will depart from there ten days hence.

The next party of Russians to leave Port Arthur for Chefoo will include 40 insane sailors and soldiers who will be taken on board the British steamer Whampoa now here. The Whampoa has been fitted up especially to transport the lunatics from Chefoo to Odessa. She will not take any other passengers.

Tokio, May 23.—It is reported that a junk filled with Russian officers nas been captured. It is presumed that they were makng a reconnoissance from Vladivostok.

Hongkong, May 23.—The latest steamer to arrive here reports sighting a Russian volunteer fleet steamer accompanied by a large transport in the Hainan straits on the morning of May 20. They were steaming west.

Historic Old House Burned.

New York, May 23.—The Canfield house, where Lafayette was once a guest, and where Robert Fulton lived while the engine for his pioneer steamboat, the Claremont, was being built in a shop nearby, was destroyed by fire Monday.

Burglars were frustrated in a daring attempt to rob the safe in the San Francisco post-office. They got away with $1,400 worth of stamps.

Inquires as to Amount of Work.

Muskogee, I. T., May 23.—Secretary Hitchcock, of the interior department, has communicated with the Dawes commission asking how much work will remain to be done after the close of the present fiscal year, and the belief is that the commission will be abolished after June 30, when the term of the present commissioners expire. It is understood one man will be named to wind up the work and there is much speculation as to whether Tams Bixby, member of the Dawes commission, or J. George Wright, Indian agent, will be appointed.

No Hope for Recovery.

It was reported late this afternoon that no hope was entertained for the recovery of W. J. Little, whose leg was amputated some days ago in the hopes of saving his life from necrosis of the bone, of which he has been a sufferer for some years. It is said he will not survive the night.

John Price and W. H. Allison took a spin around the Allison estate on Buck Creek Saturday and report crops looking A No. 1. The farm is mostly all in cotton.

The farmers of this community are talking strong of going to Stonewall with their cotton on account of the roads to Stonewall being nearly on a section line—Stonewall is 7 1-2 miles south and hardly one mile west of here and the road is good all except some mud between the bridge on Buck creek up to the railroad crossing. Now as to the Ada road: Well you all who have attempted to travel it know what it is, in fact there isnt any since the fencing fever hit this country, you can't get to Ada under 16 miles and will think it some more.

C. M. Chauncey received a letter Tuesday morning from A. F. Dening, Noble Grand of I. O. O. F., lodge at Snyder, Oklahoma, acknowledging the receipt of money sent from the Ada lodge. Presumptuous Preacher.

Kansas prosperity has its drawback. Preachers expect to receive their salaries regularly, and when they do not they bring suit. There was a time when ministers didn't expect to get their pay.

Official · City · Paper

THE Dallas commercial club is scheduled to reach Ada tomorrow—Wednesday—at 10:40 a. m. The business men should give the Dallas folks the glad hand. Let the reception committee be on hand.

SECRETARY HITCHCOCK'S little undressing from the editorial brethren of Indian Territory can not be taken as a left handed slap from a few of Spence Adams' "many thousand grafters" or Judge Townsend's fearful "clamorous white men." It came from meek, honest and patriotic defenders of the undefended, regardless of political affiliation.

EDITORS AGAINST HITCHCOCK

Declare for Single Statehood and Removal of Restrictions.

Ardmore, I. T., May 23.—Declaring for single statehood or union with Oklahoma on terms of absolute equality, pointing to the perfunctory attitude of the business interests of St. Louis toward Indian Territory in the matter of legislation, condeming Hitchcock's policy in Indian affairs as being detrimental to the best interests of the people and asking for the removal of land restrictions were among the closing features of the Indian Territory Press Association, which has just adjourned at Sulphur after a successful meeting. The molders of public opinion declared that Indian Territory was entitled to self-autonomy: that the country was resourceful; that where rain, sun and soil connived to make it a land rich and wealth producing the fruits of the pioneers could not be reaped through Congress' neglect.

The individual efforts of the editors will be directed in the future to fighting for single statehood, though possibly on different lines than heretofore employed. Outside influence will be enlisted as the means of aiding the Territory during the coming session of Congress. Politically there will be no division of sentiment, at least among the editors, or those who attended the session at Sulphur.

The National Editorial Association will be appealed to as an agency to contend for statehood. The delegates from Indian Territory feel assured that the association at Portland will appeal to Congress in behalf of Oklahoma and Indian Tereitory. While it is realized that many Eastern papers are possibly estranged or opposed to the cause of statehood on political grounds, the adoption of a statehood measure at Portland it is said, will at least restrain the opposition to keep hands off. The east it is claimed, views with envy an increase in Western representation, but the plea will be made on the grounds of justice and it is hoped to enlist their sympathy and overcome the prejudicial sentiment that now exists. The workers will get started at Guthrie, where the editorial association will gather for a two days' outing in Oklahoma prior to going to Portland. Eleven delegates have been elected from Indian Territory to the National meeting.

One feature of the convention was the roasting of Hitchcock. Nearly every speaker had something to say concerning the attitude of the Interior Department in the Territory and Hitchcock washeld responsible for this policy He was termed by some of the speakers a tyrant and one devoid of friendship for the people of Indian Territory.

Shawnee was selected and the meeting will be arranged on the same date that the Oklahoma association meeting takes place. Many are of the opinion that this means an amalgamation of the two associations. The interests of both, are mutual and more can be accomplished, jointly.

Again thanking you and the good people of Ada for the sympathy manifested, we beg to remain, Yours to command,

Chickasaw Great Fruit Country.

Ardmore, I. T., May 22.—The Chickasaw Nation is paying especial attention to the cultivation of fruit orchards. Judge Henry M. Furmrn of Ada states that very fine orchards in that section have been cultivated in the past two years and that fruits of all kinds can be grown in that vicinity. He says that the fruit industry will in a few short years become one of the main industries of that section and that the shipment of fruit will be on an extensive scale. He reports that strawberries are growing wild near Ada and if cultivated would equal in size and flavor the finest of any grown.

Complain of Toughs.

Shawnee, Ok., May 23.—Attorney General P. P. Simon, who came here Monday in response to a request made to Gov. Ferugson by certain citizens living at Keokuk Fall, a small border town near Indian Territory, in this county, for protection against the alleged tough element in that vicinity, stated after investigation that he did not beleive the case warranted interference on his part and that he would leave it to the county officials. The citizens had asked for an investigation by the grand jury, but as that body has been discharged the matter will be let rest for the present.

CHEROKEE'S WON.

White Men Who Intermarried Since 1877 Get No Rights in Lands or Funds.

Washington, May 23.—The United States court of claims on Saturday delivered a formal opinion "in the matter of the intermarried white men claiming the right to be allotted lands and funds of the Cherokee Nation vs. the United States." The opinion is a most important one, as it involves lands and funds to the value of between $6,000,000 and $7,000,000.

Briefly stated the court holds that intermarried white men, who were married prior to November 28, 1877, are entitled to share in the lands of the Cherokee Nation, but not in their vested funds. Those who married since that date have no rights in either the lands or funds. The case involves the right of intermarried men to the number of 2,500 to 3,000.

WOULD QUASH INDICTMEMTS

Motions Made in Bribery Cases of Senator Frank H. Farris and C. A. Smith

Jefferson City, Mo., May 23.—Attorneys for Senator Frank Farris and C. A. Smith Monday filed a motion in the circuit court to quash the indictments against them for bribery because they allege that the indictments were returned without proper evidence to support them and because there were pending indictments for the same offense in Marion county on a change of venue from Cole county, and had not been dismissed when these indictments were returned. Counsel for former Lieut. Gov. John A. Lee filed a motion for a change of venue from Cole county in the trial of the perjury charge against the defendant, and the examination of witnesses was begun in support of it.

Long Horns For Editors.

Guthrie, O. T., May 22.—Two carloads of longhorn cattle were received by the Miller brothers at "101" ranch Saturday, to be used at the entertainment on June 11. To comply with the quarantine laws it was necessary that each of these steers should be dipped. Their horns were so long, however, it was impossible to drive them through the chutes to the dipping vats. Permission had to be obtained from the department at Washington to disinfect them in a different way and each one was lassoed, thrown and washed separately with Beaumont oil.

BITTER FEELING AROUSED.

Chicago Federation of Labor Resents Arrest of School Children and Their Parents.

Chicago, May 23.—The arrest and prosecution of parents and children connected with school strikes following the use of colored non-union teamsters in delivering coal at public schools has aroused bitter feeling among members of labor unions. The federation of labor has adopted resolutions as follows:

"Resolved, That the Federation of Labor pledges itself to stand by these children and, if necessary for their vindication, to hold ourselves ready to withdraw all our children from the corporation-controlled schools.

"Resolved, That if these victims of servile and misdirected zeal are not immediately released we pledge the services of this organization to both children and parents who have been arrested or prosecuted by officials who are so easily blinded to the doings of sweat-shops and trust factories, but who are so ready to cast a stigma on the highest type of childhood to-day, and we promise to secure their freedom and their rights, even if it be necessary to go to the supreme court of Illinois to accomplish it."

"Resolved, That a committee of five be appointed by the president of the federation, with power to take such steps as may be necessary to give effect to these resolutions."

JAPANESE STRIKE.

Laborers on One of the Hawaiian Islands Refuse to Work Under a Russian Overseer.

Honolulu, May 22.—The steamer Kinau, which carried a company of militia and a force of police to La Haina, on the island of Maui, where Japanese strikers had become violent, returned Monday morning. The situation at La Haina has quieted and the soldiers and police are occupying the courthouse with a field piece in readiness for action. Sixty special deputy sheriffs are also on duty. The Japanese have forced the Korean laborers to strike, threatening to kill them if they continue to work. It is stated that the Japanese objected to the head overseer because he is a Russian. High Sheriff Henry intends to occupy the camps of the strikers and to arrest the ringleaders. The police say that the Japanese fired Saturday night when they were attacking the Japanese contractor who refused to join with them in the strike. The agents of the Wailuki plantation say that the strike in that section has ended.

PEACE OVERTURES FAILED.

Chicago Teamsters Repudiate Action of Their Representatives in Accepting Employers' Terms.

BUILDING INDUSTRY IS PARALYZED

Lumber Teamsters Go Out When Ordered to Make Deliveries to Boycotted Firms—President of Lumbermen's Association Declares Every Yard in Chicago Would be Tied up.

Chicago, May 23.—The Teamsters union in general council repudiated the action of their representatives in accepting the terms of peace proposed by the Employers' association, giving as their reason the refusal of the express companies to reinstate any of their striking drivers.

Spreading of the strike began promptly Monday. Thirty-six teamsters employed by the Rittenhouse & Embree Co., lumber dealers, and four employed by the Hines Lumber Co., were the first to be forced into the struggle folowing the refusal of Teamsters joint council to endorse the settlement provisionally arranged with the Employers by President C. P. Shea, of the Teamsters' union.

Through the threatened spread of the strike to all lumber dealers every branch of the building industry was apparently paralyzed. There are only 500 teamsters employed by lumber firms, but so close are the relations between them and several other unions of men engaged in hauling building material that the walkout of the lumber teamsters it was said doubtless would lead to strikers in nearly every department of the building industry, indirectly dependent on the building material teamsters it was estimated hung the employment of nearly 100,000 men in yards, mills, factories and on construction work. It was not believed the drivers' strike would affect the wood industries of building construction work generally at first. If, however, the walkout should go all along the line, as it threatened to do all the lumber yards of Chicago would be tied up.

The same programme was seemingly in store for the stone and the industrial enterprises dependent on them. The planing mills, the sash and door factories, the box factories and kindred plants would also face soon a shortage of lumber suplies, which would necessitate closing down.

Action by the teamsters Monday was decisive. In a few moments the first 40 recruits to the strike had been increased to an even hundred. Seventy of the total were employes of the Edward Hines Lumber company, at the head of which is former President Hines, of the Lumber Dealers' association. Mr. Hines has been particularly prominent among the employers in the recent negotiations for a settlement. Aside from his firm, the Rittenhouse & Embree Lumber company was the first to feel the spread of the strike Monday. Thirty teamsters employed by Rittenhouse & Embree quit. The full force in each case struck. The cause as heretofore was an order to deliver material to firms boycotted by the teamsters in the course of the long hostilities growing out of the strike of a small number of garment workers months ago.

In the first strikes called Monday the initiative was taken by the employers. Members of the teamsters' union were discharged for refusing to deliver to boycotted firms. Orders by the union for others to quit where discharges had been made followed quickly. As an immediate result the yards of two big companies were completely tied up. Edward Hines, president of the Lumbermen's association, declared that every lumber yard in the city would before long be without drivers. "It means complete stagnation of business at a time when building operations in Chicago are booming to a greater extent than has been known since 1892," said Mr. Hines. "The supply of lumber on hand will not last the building contractors more than 48 hours. The factories which depend on boxes for shipping will be crippled because they will be without lumber. If this occurs the stock yards packing industries will be especially disturbed, for they must have boxes to do the shipping."

The express companies, whose attitude on the question of re-instating their striking drivers caused the break in the peace plans, stood firm Monday, refusing to take back any of their old men. The officials of the express companies declared absolutely that none of the strikers would be re-instated.

The lumber dealers were said to be operating under an agreement by which members undertook to make deliveries for any "struck" firm. E. E. Hooper, secretary of the Sash, Door & Blind association, said Monday: "We do not propose to permit a part of the teamsters union to work and support the other part on strike. It is a case of fight with us now. Everything points to a complete tie-up of every branch of building in Chicgao until we can get non-union drivers to do the work. This will mean police protection for drivers, and if that is not sufficient the necessity of troops is inevitable."

Death of Judge Tourgee.

Bordeaux, May 23.—Judge Albion Winegar Tourgee, of Mayville, N. Y., American consul here, died Sunday morning of acute uraemia which resulted from an old wound. Judge Tourgee was taken seriously ill some months ago, but his condition afterwards improved and it was believed his recovery was probable. Recently however the disease took another serious turn and Judge Tourgee lingered until Sunday morning. He was born at Williamsfield, O., May 2, 1838.

Sighted the Thistle.

Boston, May 23.—Capt. Walker of the British steamer Gorsemore, which arrived here Monday from Antwerp states that at 2:30 p. m. on May 20, in Latitude 41.8 North and Longitude 64 West he passed close to the topsail schooner yacht Thistle, one of the contestants in the trans-Atlantic race. A breeze from the west northwest prevailed at the time and the yacht with all sails set was making a speed of about 5½ knots an hour.

Empress Fell Down Stairs.

Wiesbaden, May 23.—The accident to the German empress, Augusta Victoria, who fell downstairs Sunday, while rather more severe than at first reported, will not have any serious consequences. The cut on her forehead will probably leave a slight scar. The empress suffered from occasional attacks of vertigo and to this is attributed her loss of balance on the stair.

Mrs. Livermore's Condition.

Melrose, Mass., May 23.—Mrs. Mary A. Livermore, the author and reformer, was slightly weaker Monday. By the use of opiates she was able to pass a comfortable night. Her general condition is practically the same as it was Sunday.
